Jan. 18, 1935

Hon. Charles Evans Hughes,  
Chief Justice, U.S. Supreme Court,  
Washington, D.C.

Dear Sir:

Following my note enclosing copy of printed affidavit "How The Press is Subverted", I have been able to obtain a complete copy of Congressman Fiesinger's open letter to Attorney General Cummings referred to therein.

Pro patria, so vital do I deem its contents, that I am sending it to you for your information on the understanding that our great Supreme Court Justices welcome factual documents to assist them in their decisions, especially in such tremendous issues as the gold clause cases seem to be.

In my humble opinion, this will rank as a profound state document in American history. The writer has absolutely no interest in it other than his love for country. Outside of his wife, no person knows of this letter and its contents.

I have exhausted my personal resources in exposing by pamphlet to our citizens from coast to coast the alien force that is energizing, organizing and directing the communistic assault on American liberties. It is a singular and sinister fact that those who, like the late Speaker Rainey, have been active in a monetary or anti- otherwise, have in a number of cases either died suddenly or have become seriously ill without apparent reason. The writer has been threatened, but would consider it a duty to advance under fire—and has steadfastly done so, even after devoting his personal resources to the Cause to the point of exhaustion.

If you care to pursue this matter further, or see my literature dramatizing the record of past and present history in this great battle, I am yours to command pro patria.

Yours For Americanism,

Robert Edward Edmonson
