Gentlemen,-

I notice in our local court reporter of today an article coming from New York condemning your proposed new proxy rules. I next expect to read an article to similar effect published by The American Bar Association.

This letter, however, is to express the hope that you be ^{not} thwarted in your worthy and laudable purpose by organizations that don't see the handwriting on the wall, and to express the opinion that ^{you} can count on the National Lawyers' Guild to support your recent proposals on proxies.

Respectfully

Copy to National Lawyers' Guild
