Re: Release #34-8239 Comments

To Whom It May Concern:

As a small broker-dealer with most of my business (95%) relating to sale of mutual funds, I strongly oppose the elimination of the so called "give ups" or "reciprocal" which we from time to time receive as our share in commissions for purchases of stocks by our funds for their portfolios. I think this is very much in order and as it should be. Why shouldn't we get our proportionate share of this commission as the stock must be purchased somewhere.
