## GENERAL INFORMATION

### PERSONAL CALLS

Government telephones are provided for official use only and are not to be used for making personal calls. Please use the public pay telephones in the first, basement or on the 6th or 7th floors.

### LONG DISTANCE CALLS - FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

All long distance telephone calls made within the United States should be placed over the FTS.

The Federal Telecommunications System (FTS) is a government network of leased long-distance circuits interconnecting major cities. Official calls can be made through the FTS to any telephone subscriber in the distant cities as well as to government agencies in those cities. Refer to page 33 of this directory and the FTS Telephone Users Guide for operating instructions.

1. Your FTS access code is "8".
2. Your FTS number is area code 202, plus the number on the dial of your telephone. Do not identify yourself with the switchboard number.
3. If you are calling a commercial number, dial "8", then dial "0" plus the area code, plus the seven digit commercial number.
4. Follow the instructions in the FTS Users Guide for calls to FTS numbers.
5. To reach long-distance commercial information dial "9", plus the area code, plus 555-1212. The operator will connect you with the city information operator. After receiving the distant person's number, hang up and complete the call over the FTS. FTS Operators cannot provide commercial information.
6. To report FTS trouble dial "0", give the operator your name and extension, the telephone number you were trying to reach and the nature of the trouble you encountered. She will assist you.

### COLLECT CALLS

Calls to be charged to the person being called are initiated by dialing 9 + 0 + area code + 7 digits. The telephone company operator will come in on line for special instructions. Be sure to start by telling her that the call is to be a collect call.

### REPORT ALL LONG DISTANCE CALLS

All long distance calls, including incoming collect calls and collect calls charged to the person called, must be reported promptly to the Comptroller on Form SEC-65. Commercial toll calls to be charged to the Commission must be appropriately justified, either on the reverse of the form or in a separate memorandum.

### LOCAL OFFICAL CALLS

Place local calls, including those which involve message unit charges, over commercial "Dial 9" facilities.

### TO TRANSFER CALLS

To transfer an incoming call from the public to another 75 or 42 number, depress the handset plunger of switchhook for one second and release. Do not jiggle. Wait until the operator comes in on your line, then request her to transfer the call. Thru-dialed calls originating from other Government agencies in the Interdepartmental Dial System cannot be transferred.

### INTEROFFICE CALLS

Use this directory and dial the extension number given. If the party is not listed, dial the SEC receptionist, 54833, NOT the telephone operator, and ask for information. Keep an up-to-date list of frequently called numbers. J

### INTERDEPARTMENTAL TELEPHONE NUMBERS

Telephone numbers for individual persons in other agencies located in the Washington Metropolitan area can be obtained from the receptionist in the lobby of Capitol Mall North (ext. 54833).

### OUT-OF-TOWN DIRECTORIES

Directories for a number of cities are available for reference in the Library, room 150.

### DIRECTORY CHANGES

Any addition, deletion, or change in a directory listing must be reported promptly by the appropriate Administrative Assistant on Standard Form 146, to Mr. James V. Rankin, Room 792, Office of Administrative Services.

# FTS CALLING BY TIME ZONES

## From Washington Metropolitan Area

PAGE 33

**SYMBOLS**

You are more likely to reach your party during these time periods. In addition, it results in good network utilization because it spreads the traffic load more evenly during the day. As many of your daily calls as possible should be placed during these time periods (about 75%).

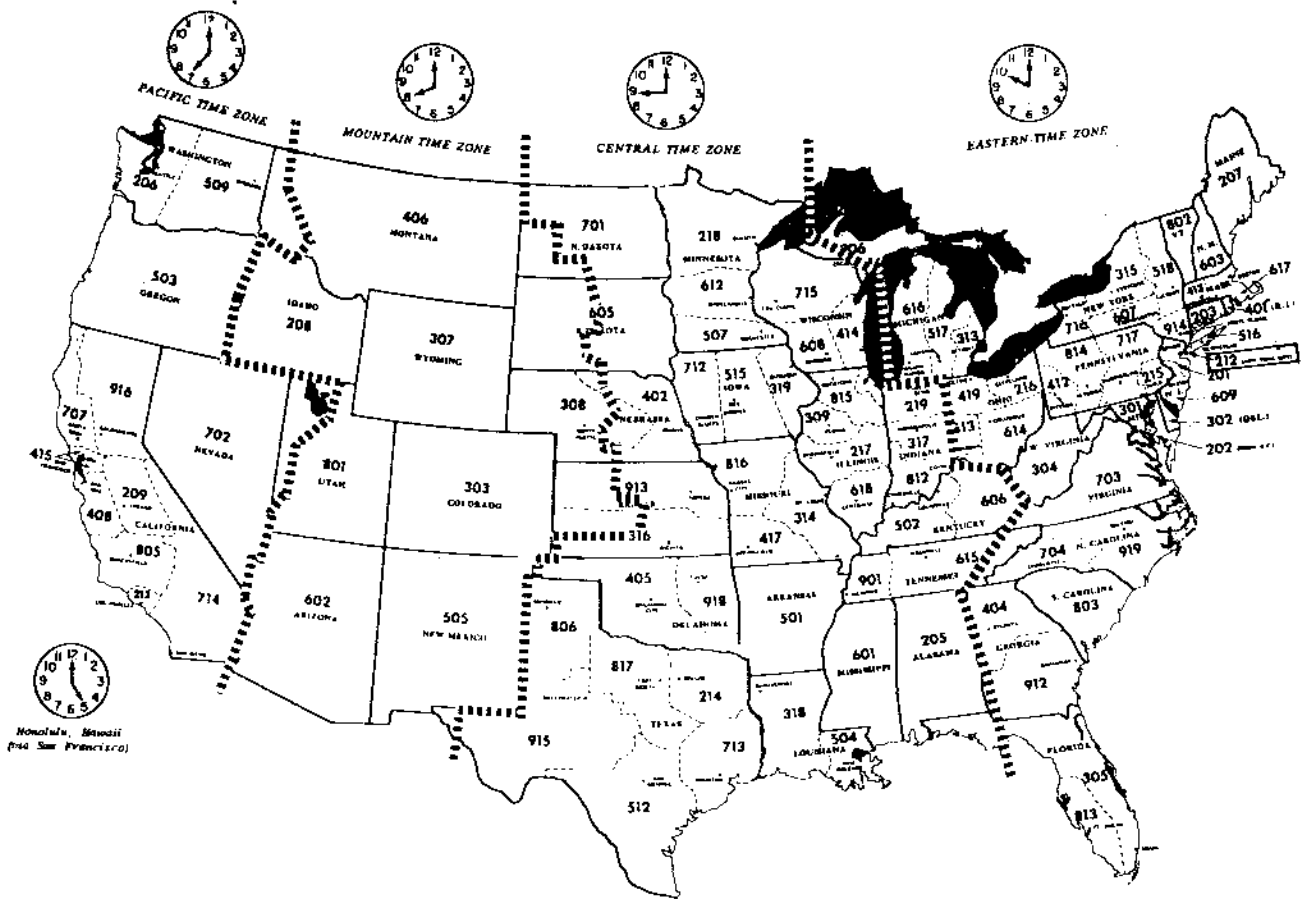

Your avoiding the network busy hours when feasible, especially between 2 p.m. and 5 p.m., will result in improved service to you. Also, like good network utilization above, it will reduce the number of FTS circuits and equipment required and therefore the cost per completed call.

# HOW TO PLACE LONG DISTANCE CALLS

THE FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)  
SHALL BE USED IN PLACING ALL OFFICIAL LONG DISTANCE CALLS  
IN THE CONTIGUOUS 48 STATES

FOR INFORMATION REFER TO THE FTS TELEPHONE USERS GUIDE

GOVERNMENT NUMBERS DIAL 8 + AREA CODE + 7 DIGITS  
NON-GOVERNMENT NUMBERS DIAL 8 + 0 + AREA CODE + 7 DIGITS  
GIVE OPERATOR AGENCY IDENTIFICATION CODE UPON REQUEST
