Dear Mr. Rove,

My name is Ken Logsdon, I own a small business in Peachtree City, Georgia
Minuteman Press, Peachtree City. I employ 2 people, a pressperson, and graphics/counter sales person.

During the President's first term, tax cuts were a major issue, and as a small business owner I know that those tax cuts helped my business and my family as well, (I have a wife and 2 children).

During the 2004 Presidential campaign tax cuts again were a major topic. With the President being re-elected I know now that what he put in place will stay and hopefully the issues he wants for his second term will pass as well.

Sir, here is what I would like to do.

Each year, the President gives the State of the Union Address; he has many people up in the gallery area who are there to support him, and also individuals who are there because they represent issues that the President wants the American people to see and understand that are important for our country going forward.

➔ I want to be the "small business owner" up in the gallery who represents what President Bush helped put in place and protected during his election campaign.

I know that what I go through on a daily basis is no different than what all other small business owners deal with, and we should be thankful for what the President has done.

I bought my company on August 29, 2001. Six days later, I went to New York for three weeks training with Minuteman Press International. They are in Farmingdale, New York.

So, before I could open my doors, the whole world had changed. When I was flying back to my home town, I realized I was coming back to create two jobs, and give opportunity to people looking for work. Our first three years (we officially opened on Nov 1, 2001) have been hard, but I am convinced I made the right choice to invest in our community, and to give a good quality product to all of our customers.

Mr. Rove, I would like you to pass my name to President Bush and let him know I would like to be there with him as that small business owner, and let all of the American people know that we, as the people who invest our money, do make a difference, and the President's tax cuts make a difference for all of us.

I look forward to hearing from you,

Regards, Ken Logsdon

Home # (b)(6)

I wanted to let you know the reason I have faxed you this is because I was told this would be the best way to let you know about what I would like to do.
